2012 Mission Work Trips

A MINISTRY TO THE WORKING POOR:

"Here we are taking care of 7 kids, and nobody will help us because my husband works!"

After taking-in her sister's three children (orphaned after their mother was killed in a tragic car accident) Susan, her husband Abe, and 7 children were all living in a 2-bedroom trailer!

Without additional bedrooms, they were told her sister's children would be placed in foster homes... but on a coal miner's salary?

Abe's income from long hours in the mines provided food for his large family, but also disqualified him from public assistance... Unfortunately, this situation is not uncommon!

This past summer, 3 volunteer crews from Minnesota and Pennsylvania ministered to this family by building a 3-bedroom addition to their home, and also began repairing a broken relationship between the family and Jesus Christ!

*I felt like the work we were doing
really made a difference!*
Group Leader - Newtown Square, PA

*I loved the experience! It was very unique;
unlike anything I've done before!*
Student Volunteer - Minneapolis, MN

*I will remember how grateful the people are;
I have made relationships this week that
will last a lifetime!*
